ZIERLER, KENNETH L. Hyperosmolarity in adults: a critical review, 1

VOL.
7
1958

SUBJECT INDEX

A

Abortion, pregnancy, and artificial menopause, occurrence of, among women with coronary artery disease, 273

Administration of present programs, review of: care of long-term patient, 144

Adults, hyperosmolarity in, 1

Aged persons, illness in, multidisciplinary study of. I. Methods and preliminary results, 332

Alcoholics among anxiety patients, 513

Alkaptonuria. Report of family with seven cases appearing in four successive generations, with metabolic studies in one patient, 455

Ambulation, assisted, energy expenditure in, 228

American medicine, drug industry and, 440

Analgetics, statistical comparison of methods for evaluating, 379

Analysis, cohort, application of, to study of time trends in neoplastic disease, 24

Anesthesia and surgery in respirator patients with severe poliomyelitis, 396

Announcement: availability of results of research and development in U.S.S.R. and other Soviet orbit countries in field of science, technology, and medicine, 524
medical research foundation for Tay-Sachs disease and allied disorders, 182
symposium on cancer, 272, 453
symposium on chronic congestive heart failure, 454

Antilipids occurring in nontreponemal diseases and syphilis, differentiation of, 36

Anxiety accompanying physical complaints, diagnostic or therapeutic procedures, treatment of, 509
critical review of meprobamate (Miltown, Equanil) in treatment of, 500

Artery disease, coronary, occurrence of pregnancy, abortion, and artificial menopause among women with, 273

Arthritis, rheumatoid, psychosocial factors in epidemiology of, 466

Artificial menopause, pregancy, and abortion among women with coronary artery disease, occurrence of, 273

Asymptomatic and latent syphilis, results of therapy of, in a prison population. I. Clinical outcome with reference to cardiovascular and central nervous system syphilis and related to a nonsyphilitic control population, 300
II. Seroreversal following definitive treatment as shown by New York State complement fixation test, 312

Availability of results of research and development in U.S.S.R. and other Soviet orbit countries in field of science, technology, and medicine, 524 (announcement)

B

Book reviews:
arterial embolism, 448
atomic energy in medicine, 520
cardiovascular rehabilitation, 359
the chemistry and biology of purines, 180
cholesterin-ernährung-gesundheit, 270
a classified bibliography of gerontology and geriatrics, 181
clinical toxicology, 523
deafness, mutism and mental deficiency in children, 358
drugs and the mind, 450
epilepsy-grand mal, petit mal convulsions, 92
foot troubles, 178
the functions and education of medical record personnel, 356
general diagnosis and therapy of skin diseases, 448
hormones in blood, 450
an introduction to the study of experimental medicine, 447
an investigation into the vocational potentials of hospitalized patients with chronic disabilities, 269
J.A.M.A. clinical abstracts, 1957, of diagnosis and treatment, 181
liver: structure and function, 178
methodology of the study of aging, 181
morphine and allied drugs, 357
non-group enrollment for health insurance, 521
organized home medical care in New York City, 179
orthopedics for the general practitioner, 269
physical methods in physiology, 521
the physician-writer's book. Tricks of the trade of medical writing, 359
practical notes on nursing procedures, 449
practical nursing today, 521
practical otolaryngology, 180
practical use of the office laboratory and x-ray, 450
prevention of chronic illness, 357
primer for paraplegics and quadriplegics, 271
psychopathic personalities, 449
psychotropic drugs, 523
regulation and mode of action of thyroid hormones, 92
the relation of psychiatry to pharmacology, 448
scientific writing, 449
self-help devices for rehabilitation, 522
trends in gerontology, 270
voluntary health insurance in two cities, 179
William Harvey, his life and times, 356
Year book of cancer, 522

Books received, 360

VOL
7
195

C

Cancer, delay in diagnosis and treatment of: critical analysis of literature, 95
symposium on (announcement), 272, 453
whether to tell patient diagnosis, 55

Cardiovascular and central nervous system syphilis and related to nonsyphilitic control population, clinical outcome with reference to; results of therapy of latent and asymptomatic syphilis in prison population, 300
complications in severe poliomyelitis, 390
-renal mortality statistics in United States, 1920-1955, 402
trends, 1920-1947, opinions of expert consultants concerning, 407
in United States, observations on possible factors for sex and race trends in, 401

Care of chronically ill, planning for, 152
long-term patient: review of administration of present programs, 144

Central nervous system and cardiovascular syphilis and related to a nonsyphilitic control population, clinical outcome with reference to; results of therapy of latent and asymptomatic syphilis in a prison population, 300

Childhood hypothyroidism, therapeutic concepts relating to, 242

Chymotrypsin and trypsin, effect of intramuscular injection of, on ulcerative lesions, 476

Circulatory testing, digital, in primary hypertension with reference to severity of disease and to drug therapy, 493

Cirrhosis, multilobular, of liver in patients with cystic fibrosis, 70

Clinical examination, further study of nonparticipation, problems in a morbidity survey involving, 321
outcome with reference to cardiovascular and central nervous system syphilis and related to a nonsyphilitic control population; results of therapy of latent and asymptomatic syphilis in a prison population, 300

Cohort analysis, application of, to study of time trends in neoplastic disease, 24

Comparison of methods, statistical, to evaluate analgetics, 379

Complement fixation test, New York State seroreversal following definitive treatment as shown by, 312

Control population, nonsyphilitic, clinical outcome with reference to cardiovascular and central nervous system syphilis and related to; results of therapy of latent and asymptomatic syphilis in a prison population, 300

Coronary artery disease, occurrence of pregnancy, abortion, and artificial menopause among women with, 273
disease and hypertension, familial and epidemiologic aspects of, 198

Cystic fibrosis of pancreas, 58

Cystinosis (cystine storage disease) and Fanconi syndrome, 349

D

Decline of rheumatic fever. Recurrence rates of rheumatic fever among 782 children for twenty-one consecutive calendar years (1936-1956), 183

Definitions, importance of, in care of long-term patient, 149

Definitive treatment, seroreversal following, as shown by New York State complement fixation test; results of therapy of latent and asymptomatic syphilis in prison population, 312

Dehydration, hypertonic, in adults, 1

Delay in diagnosis and treatment of cancer: critical analysis of literature, 95

Diabetes mellitus, and socioeconomic status, 413
uncontrolled, hyperosmolarity in, 15

Differentiation of antilipids occurring in nontreponemal diseases and syphilis, 36

Digital circulatory testing in primary hypertension with reference to severity of disease and to drug therapy, 493

Distribution of chronic illness by age and sex, 150

Drug industry and American medicine, 440
therapy and severity of disease, digital circulatory testing in primary hypertension with reference to, 493
in hypertension, an evaluation of, 287
in primary hypertension in relation to severity of disease, 484

E

Educational courses for long-term respirator patients, 129

Energy expenditure in assisted ambulation, 228

Epidemiologic and familial aspects of coronary disease and hypertension, 198
study of nephrotic syndrome, 422

Epidemiology of rheumatoid arthritis, psychosocial factors in, 466

Equanil, Miltown (meprobamate), in treatment of anxiety, critical review of efficacy of, 500

Evaluating analgetics, statistical comparison of methods for, 379

F

Familial and epidemiologic aspects of coronary disease and hypertension, 198

Fanconi syndrome, 346

Fever, rheumatic, decline of, recurrence rates of, among 782 children for twenty-one consecutive calendar years (1936-1956), 183

Fibrosis, cystic, of pancreas, 58

Financing medical care for long-term patient, 162

G

Gastrointestinal bleeding, hyperosmolarity associated with, 15
complications in severe poliomyelitis, 393

Governments, Federal and State, influence of, on planning for care of chronically ill, 153

Growth of hospitals in care of long-term patient, 145

H

Health and welfare agencies, medical care for long-term patient through, 146

Hearing loss in severe poliomyelitis, 398

Heart failure, chronic congestive, symposium on, 453 (announcement)

Heat prostration and excessive salt loss in sweat in patients with cystic fibrosis, 69

Height, weight, and mortality in population of longshoremen, 363

Hemodynamic studies, renal, in patients with extensive paralysis; influence of weight loss, muscle atrophy, and immobilization, 43

Hexamethonium therapy, pneumonitis as complication of, 234

High-protein diet, hyperosmolarity caused by, 17

History and origins of care of long-term patient, 145

Home care coordinator, 167
programs, cost of, 166
growth of, in care of long-term patients, 146
number of, 152
of long-term respirator patients, pyschosocial factors in, 121
organization of, 159

Hospitalized neurotic and psychotic patients in treatment of anxiety, 505

Hospitals, number of chronically ill patients in, 151

Hospital stay, prolonged, some social considerations and research about, 264 (Edit.)

Hydrocortisone, new form of, for local injection, experience in management of joint and soft tissue disease with, 429

Hypernatremia in adults, 1

Hyperosmolarity in adults: critical review, 1

Hypertension and coronary disease, familial and epidemiologic aspects of, 198
an evaluation of drug therapy in, 287
primary, digital circulatory testing in, with reference to severity of disease and to drug therapy, 493
drug therapy in, in relation to severity of disease, 484

Hypothyroidism in childhood, therapeutic concepts relating to, 242

Hypertonic dehydration in adults, 1

I

Incidence of chronic illness, 151

Industry, drug, and American medicine, 440

Injection, intramuscular, of trypsin and chymotrypsin; effect on ulcerative lesions, 476
local, new form of hydrocortisone for, experience in management of joint and soft tissue disease with, 429

In memoriam: Joseph Earle Moore, 93

Institutions, number of chronically ill patients in, 151

Integration of chronically ill into general programs, trends toward, in care of long-term patient, 147

Intracranial disease, hyperosmolarity associated with, 10

Intramuscular injection of trypsin and chymotrypsin, effect on ulcerative lesions, 477

J

Joint and soft tissue disease, experience in management with new form of hydrocortisone for local injection, 429

L

Latent and asymptomatic syphilis, results of therapy in prison population. I. Clinical outcome with reference to cardiovascular and central nervous system syphilis and related to nonsyphilitic control population, 300
II. Seroreversal following definitive treatment as shown by New York State complement fixation test, 312

Lesions, ulcerative, effect of intramuscular injection of trypsin and chymotrypsin on, 476

VOL
7
195

Local injection, new form of hydrocortisone for, experience in management of joint and soft tissue disease with, 429
level, planning for care of chronically ill on, 154

Longshoremen, population of, height, weight, and mortality in, 363

Long-term patient, care of, 144
respirator patients, psychosocial factors in home care programs of, 121

M

Management of joint and soft tissue disease with new form of hydrocortisone for local injection, experience in, 429

Meconium ileus in patients with cystic fibrosis, 69

Medicine, American, drug industry and, 440 (Edit.)

Medical and surgical complications associated with severe poliomyelitis, 385

Menopause, artificial, pregnancy, and abortion, occurrence of among women with coronary artery disease, 273

Mentally ill, institutions for, 151

Mental patients, chronic, significant figures in rehabilitation of, 131

Meprobamate compared with standard drugs, 514
(Miltown, Equanil), critical review of efficacy of, in treatment of anxiety, 500

Metabolic disturbances in severe poliomyelitis 392
studies in one patient with alkaptonuria in report of family with seven cases in four successive generations, 455

Miltown, Equanil (meprobamate), critical review of efficacy of, in treatment of anxiety, 500

Moore, Joseph Earle, in memoriam, 93

Morbidity survey, further study of nonparticipation in, involving clinical examination, 321

Mortality, cardiovascular-renal, in United States, observations on possible factors responsible for sex and race trends in, 401
height and weight, in population of longshoremen, 363

Multidisciplinary study of illness in aged persons. I. Methods and preliminary results, 332

Multilobular cirrhosis of liver in patients with cystic fibrosis, 70

Multiple myeloma, Fanconi syndrome associated with, 352

N

National health agencies, contributions made by, to planning for care of chronically ill, 152

Neoplastic disease, application of cohort analysis to study of time trends in, 24

Nephrotic syndrome, epidemiologic study of, 422

New York State complement fixation test, seroreversal following definitive treatment as shown by; results of therapy of latent and asymptomatic syphilis in prison population, 312

Nonparticipation problems, further study of, in morbidity survey involving clinical examination, 321

Nonsyphilitic control population, clinical outcome with reference to cardiovascular and central nervous system syphilis and related to; results of therapy of latent and asymptomatic syphilis in prison population, 300

Nontreponemal diseases and syphilis, differentiation of antilipids occurring in, 36

Nursing and social services, growth of, in care of long-term patients, 146
homes, facilities for mentally ill, special problems of, 158

Nutritional problems in severe poliomyelitis, 392

O

Occupational therapy among long-term respirator patients, 129

Orthodontic problems in severe poliomyelitis, 399

Orthopedic deformities in severe poliomyelitis, 399

Outpatient services, development of, in care of long-term patient, 146

Outpatients, neurotic and psychotic, and private office patients in treatment of anxiety, 501

P

Pancreas, cystic fibrosis of, 58

Pancreatic deficiency, clinical results of, 67

Paralysis, extensive, patients with, renal hemodynamic studies in; influence of weight loss, muscle atrophy, and mimobilization, 43

Patient delay, duration of, in diagnosis and treatment of cancer, 100

Paralytics, general, results of treatment in 1,086, majority of whom were followed for more than five years, 209

Paresis, results of treatment in, 209

Patient, what to tell, 52

Personnel for programs for chronically ill, recruitment of, 168
problems, scope of, in programs for chronically ill, 167

Physician delay, duration of, in diagnosis and treatment of cancer, 102

Pneumonitis as complication of hexamethonium therapy, 234

Poliomyelitis, severe, medical and surgical complications associated with, 385

Pregnancy, abortion, and artificial menopause, occurrence of, among women with coronary artery disease, 273
complicating poliomyelitis, 397

Prevalence of chronic illness, 150
of delay in diagnosis and treatment of cancer, 98

Prevention and rehabilitation, trends toward, in care of long-term patient, 147

Primary hypertension, digital circulatory testing in, with reference to severity of disease and to drug therapy, 493
drug therapy in, in relation to severity of disease, 484

Prison population, results of therapy of latent and asymptomatic syphilis in. I. Clinical outcome with reference to cardiovascular and central nervous system syphilis and related to nonsyphilitic control population, 300
II. Seroreversal following definitive treatment as shown by New York State complement fixation test, 312

Prolonged hospital stay and research, some social considerations about, 264 (Edit.)

Psychiatric and socioeconomic complications in severe poliomyelitis, 395

Psychosocial factors in epidemiology of rheumatoid arthritis, 466
home care programs of long-term respirator patients, 121

Pulmonary compliance, decreased, in severe poliomyelitis, 394
complications in severe poliomyelitis, 385

R

Race and sex trends, observations on possible factors responsible for, in cardiovascular-renal mortality in United States, 401

Recurrence rates of rheumatic fever among 782 children for twenty-one consecutive calendar years (1936-1956), 183

Rehabilitation of chronic mental patients, significant figures in, 131
vocational, of long-term respirator patients, 128

Renal hemodynamic studies in patients with extensive paralysis; influence of weight loss, muscle atrophy, and immobilization, 43

Reproductive patterns in women with coronary artery disease, 276

Research and prolonged hospital stay, some social considerations about, 264 (Edit.)
in field of chronic illness, importance of, 169

Respirator patients, long-term, psychosocial factors in home care programs of 121
with severe poliomyelitis, anesthesia and surgery in, 396

Respiratory infection in cystic fibrosis of pancreas, 65

Results of treatment in 1,086 general paralytics, majority of whom were followed for more than five years, 209

Retirement problems, 444 (Edit.)

Rheumatic fever, decline of, recurrence rates of, among 782 children for twenty-one consecutive calendar years (1936-1956), 183

Rheumatoid arthritis, psychosocial factors in epidemiology of, 466

S

Screening for venereal disease, 140

Selection of patients in drug therapy in hypertension, 288

Seroreversal following definitive treatment as shown by New York State complement fixation test; results of therapy of latent and asymptomatic syphilis in prison population, 312

Services for chronically ill, coordination and integration of, 160

in a community organization of factors affecting, 155

for patient with prolonged illness or disability, organization of, 155

Severity of disease and drug therapy, digital circulatory testing in primary hypertension with reference to, 493

primary hypertension in relation to, 484

Sex and race trends, observations on possible factors responsible for, in cardiovascular-renal mortality in United States, 401

Socioeconomic status and diabetes mellitus, 413

Sodium chloride excess, shifts in body water after, 16

Socioeconomic and psychiatric complications in severe poliomyelitis, 395

Soft tissue and joint disease, experience in management of, with new form of hydrocortisone for local injection, 429

Staffing programs for chronically ill, 166

Statistical comparison of methods to evaluate analgetics, 379

Surgery and anesthesia in respirator patients with severe poliomyelitis, 396

Surgical and medical complications associated with severe poliomyelitis, 385

Survey, morbidity, further study of nonparticipation, problems in, involving clinical examination, 321

Syndrome, Fanconi, 346

nephrotic, epidemiologic study of, 422

Syphilis and nontreponemal diseases, differentiation of antilipids occurring in, 36

cardiovascular and central nervous system, clinical outcome with reference to, and related to nonsyphilitic control population; results of therapy of latent and asymptomatic syphilis in prison population, 300

latent and asymptomatic, results of therapy of, in prison population. I. Clinical outcome with reference to cardiovascular and central nervous system syphilis and related to nonsyphilitic control population, 300

Syphilis—Cont'd

II. Seroreversal following definitive treatment as shown by New York State complement fixation test, 312

T

Tay-Sachs disease, and allied disorders, medical research foundation for, 182 (announcement)

Therapeutic concepts relating to hypothyroidism in childhood, 242

Thyroid privation, clinical signs of, in childhood, 249

Time trends, in neoplastic disease, application of cohort analysis to study of, 24

Tissue, soft, and joint disease, experience in management of, with new form of hydrocortisone for local injection, 429

Toxicity, heavy metal, Fanconi syndrome associated with, 352

Transportation problems in severe poliomyelitis, 398

Trends in concepts in care of long-term patients, 146

sex and race, observations on possible factors responsible for, in cardiovascular-renal mortality in United States, 401

Trypsin and chymotrypsin, effect of intramuscular injection of, on ulcerative lesions, 476

Tuberculous, institutions for the, 151

U

Ulcerative lesions, effect of intramuscular injection of trypsin and chymotrypsin on, 476

United States mortality, cardiovascular-renal, observations on possible factors responsible for sex and race trends in, 401

Urinary tract, complications of, in severe poliomyelitis, 388

V

Venereal disease, screening for, 140

Vocational rehabilitation of long-term respirator patients, 128

VOL. 7 1958

W

Water balance, normal, 2
body, shifts in, after loss during hyperosmolarity, 7
lack, experimental, adjustments to, in hyperosmolarity, 5

Weight, height and mortality, in population of longshoremen, 363

Wilson's disease, Fanconi syndrome associated with, 352

X

X-ray in diagnosis and therapy of hypothyroidism in childhood, 253
